
BBA TECHNOLOGY · DUBAI SQUARE · MAY 2026

Beyond Security.

EMAAR has publicly committed to making Dubai Square **the world's most advanced mall**. BBA has the technology to deliver every part of that vision — not just security.

NEW PLATFORMS PROPOSED

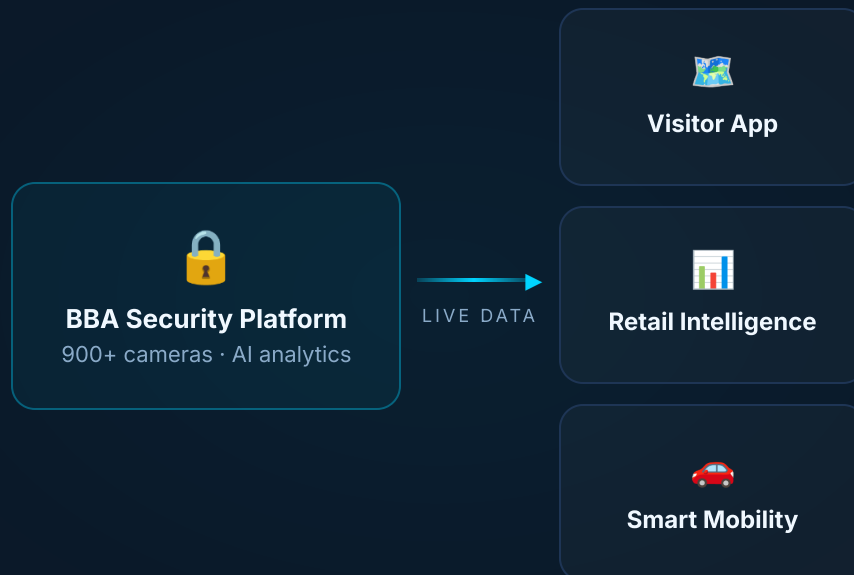

8

EMAAR COMMITMENTS COVERED

— THE CASE

Why BBA is the **only choice**

One platform generates the data. Three new products consume it. No other vendor can offer this without starting from zero.

Data Already Being Generated

The footfall, crowd density and movement data that every smart-mall product needs comes directly from BBA's camera AI. Any competing vendor would need to build a parallel infrastructure from scratch.

Single Integration Point

Security, visitor experience, retail analytics and mobility all share one data model. One API, one partner, one support escalation path — dramatically less complexity for EMAAR's IT team.

No Duplicate Infrastructure

The security platform's backend — AI engine, databases, API layer — is the exact foundation these three products need. Marginal additional cost, full additional capability.

— WHAT WAS PROMISED

EMAAR's 8 public commitments. BBA has the answer for all.

Statements made by Mohamed Alabbar and EMAAR / Dubai Holding in official press releases.

01

AI-assisted visitor navigation across 2.6M m²

"AI-assisted navigation will help visitors efficiently explore the vast 2.6 million square meter space."

Visitor Experience

02

Custom mobile app — quick checkout, barcode scan, click-and-collect

"Custom-designed mobile apps, quick checkout solutions, search and barcode scanning applications."

Visitor Experience

03

Predictive analytics to help retailers stock the right products

"Predictive analytics that help retailers stock the right products." — Mohamed Alabbar

Retail Intelligence

04

Omnichannel retail — online and in-store fully integrated

"With its omnichannel offering, it not only drives in-store retail but also the online engagement of brands."

Retail Intelligence

05

Smart parking solutions — real-time occupancy and guidance

"From smart parking solutions to predictive analytics, technology permeates every aspect of the Dubai Square experience."

Smart Mobility

06

EV charging — world's first drive-through mall

"Dubai Square introduces the world's first drive-through mall concept... reflecting Dubai's push to accelerate EV adoption."

Smart Mobility

RFID technology integrated into retail operations

"Radio-frequency identification technology, mobile payments and click-and-collect services."

Retail Intelligence

"Smart indoor city" — unified operational management

"Dubai Square is designed as a smart indoor city." — EMAAR / Dubai Holding

Operations

— THE SOLUTION

Three platforms. Every commitment covered.

PRODUCT 01 — VISITOR EXPERIENCE

Dubai Square Visitor App

Nobody gets lost in 2.6 million m². AI-powered routing, live crowd-density maps, smart parking and a personalised shopping experience — all driven by BBA's AI analytics layer feeding live data into the navigation engine.

EMAAR'S COMMITMENT

"AI-assisted navigation will help visitors efficiently explore the vast 2.6 million square meter space."

— NAVIGATION

- > Real-time indoor map — stores, exits, EV chargers, lifts
- > AI routing updated live from crowd density data
- > Avoid-crowded-areas mode — Arabic and English voice guidance

— PARKING ASSISTANT

- > B1/B2 live occupancy before you arrive
- > EV charger availability and reservation
- > Click-and-collect order tracking + find your car on exit

— TECH STACK

Indoor positioning	BLE Beacon + Wi-Fi
Crowd data feed	BBA Security AI
Mobile	React Native — iOS + Android
Backend	.NET 8 + PostgreSQL

— DELIVERY

Parallel development. No added hardware.

All three platforms are developed in parallel with the security platform on the same server infrastructure.

**PHASE A****Retail Intelligence Platform****4 – 6 months**

Runs in parallel with security platform development

**PHASE B****Smart Mobility Platform****5 – 7 months**

Runs in parallel with security platform development

**PHASE C****Dubai Square Visitor App****5 – 8 months**

Runs in parallel with security platform development

NEXT STEPS

One vendor.
Every promise EMAAR made.

BBA's security and AI platform generates the data backbone that powers all

three products — turning EMAAR's public promises into delivered reality.
